Professional Summary

UI/UX Designer with hands-on experience designing intuitive, user-centered web and mobile interfaces for university services, professional career tools, tourism, e-commerce, and Islamic applications. Skilled in user flows, wireframing, high-fidelity prototyping, and interaction design using Figma. Technical background in front-end and mobile development enables practical, implementation-aware design decisions and effective collaboration with engineering teams.

Work Experience

UI/UX Designer *2025 – Jun. 2026*
DGSOFTWARE, Tlemcen, Algeria

- Redesigned front-end interfaces for internal software products, increasing user engagement by 20% through improved usability and visual consistency.
- Refined layouts, navigation flows, and interactive components across multiple internal tools to reduce usability friction and improve task completion.
- Conducted design reviews and iterated on wireframes and prototypes using usability feedback and stakeholder input.
- Collaborated with developers to deliver clear design specifications and support accurate front-end implementation.

Selected UI/UX Projects

Cvily – ATS-Friendly Resume Builder *Mobile Application*
UI/UX Design | Figma

- Designed a simple, professional user experience for creating ATS-friendly resumes.
- Created user flows and high-fidelity interface designs that guide users through resume creation with clarity and minimal friction.

UniNotify – University Notification App *Mobile Application*
UI/UX Design | Figma | Kotlin | Jetpack Compose | Firebase

- Designed a mobile interface for real-time university, campus, and professor announcements.
- Structured notification and information flows to help students discover and follow relevant academic updates efficiently.

Tebhira – Beach Exploration App *Mobile Application*
UI/UX Design | Figma

- Designed a clean, sea-inspired mobile experience for discovering Algeria's coastal destinations.
- Created visually cohesive browsing and exploration screens focused on simple navigation and destination discovery.

Tawba – Islamic Companion App *Mobile Application*
UI/UX Design | Figma | Jetpack Compose | Kotlin | Adhan API

- Designed a calm, accessible interface for Quran reading, Adhkar, Duas, and accurate prayer-time information.
- Organized core religious content and daily-use features into clear, user-friendly navigation flows.

Mawachi – Eid Livestock Marketplace *Mobile Application*
UI/UX Design | Figma | Kotlin | Firebase

- Designed a marketplace experience enabling Algerian users to browse, buy, and pay for Eid livestock with home delivery.

- Developed product discovery, purchase, and delivery-oriented interface flows for a localized e-commerce experience.

PROGRES App Redesign *Mobile Application Redesign*
UI/UX Design | Figma

- Redesigned the Algerian university PROGRES app with a modern, student-centered interface.
- Simplified access to academic data and university services through clearer information hierarchy and navigation.

Education

Master's Degree in Computer Science – Artificial Intelligence *2026*
University of Yahia Fares, Médéa, Algeria
Bachelor's Degree in Computer Science *2023*
University of Yahia Fares, Médéa, Algeria

Skills

Design: UI/UX Design, User Flows, Wireframing, Prototyping, Interaction Design, Responsive Design, Design Systems, Behavioral Design
Tools: Figma, Photoshop, Affinity
Front-End & Mobile: React, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, Kotlin, Jetpack Compose, Flutter (Dart)
Supporting Skills: Firebase, Python, FastAPI, Git/GitHub

Certification

- Figma Pro Pt. 1: Auto Layouts, Grids & Components – Skillshare

Languages

Arabic: Native
English: Professional Working Proficiency
French: Basic
